Katello - Bug #6866

Cannot create a content host without environment if I have more than 1 environment in my organization

07/31/2014 12:01 PM - David Davis

Status:	Resolved		
Priority:	Normal		
Assignee:	David Davis

Pull request:			

Description

I get an error that default_environment is an undefined method. That was removed a long time ago AFAIK.
