

Katello - Bug #6869

Internationalization does not work when setting the preferences to use the Browser locale

07/31/2014 01:11 PM - Christine Fouant

Status:	Closed	Fixed in Releases: Found in Releases: Red Hat JIRA:
Priority:	Normal	
Assignee:	Christine Fouant	
Category:	Web UI	
Target version:	Katello 2.0	
Difficulty:		
Triaged:	Yes	
Bugzilla link:	1093433	
Pull request:	https://github.com/Katello/katello/pull/4513	
Description		
Created attachment 891607 [details] screenshot		
Description of problem: Internalization does not work when setting the preferences to use the Browser locale.		
Version-Release number of selected component (if applicable):		
How reproducible: 100%		
Steps to Reproduce: 1. On your browser, set the language prefereces as follow: pt_BR, en_US		
2. Make sure the user profile has the option "Browser Locale" at the language preferences		
3. Clean the cache files on your browser and access: Content-> Products Content-> Sync		
Actual results: Pages are displayed in French or Spanish.		
Expected results: Locale works as configured.
