

## Foreman - Bug #6882

### POST create responses should be 201

08/01/2014 07:49 AM - Daniel Lobato Garcia

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b> Alon Goldboim	
<b>Category:</b> API	
<b>Target version:</b> 1.10.0	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b>	<b>Found in Releases:</b>
<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b> All api/v2 create responses are 200, with the except of interfaces. However, the RFC specifies that when a resource is created, the server should return a 201 code, and a Location header with the location of the newly created resource.  process_success in base_controller needs to be changed to match the RFC.
