Foreman - Bug #6882

POST create responses should be 201

08/01/2014 07:49 AM - Daniel Lobato Garcia

Status:	Closed		
Priority:	Normal		
Assignee:	Alon Goldboim

Pull request:			

Description

All api/v2 create responses are 200, with the except of interfaces.
However, the RFC specifies that when a resource is created, the server should return a 201 code, and a Location header with the location of the newly created resource.

process_success in base_controller needs to be changed to match the RFC.
