Fixes #691 - Implement simple status service

Signed-off-by: Lukas Zapletal <lzap+git@redhat.com>

History

#1 - 02/25/2011 07:33 AM - Lukas Zapletal

- Assignee set to Lukas Zapletal

#2 - 02/25/2011 07:50 AM - Lukas Zapletal

I have implemented this: <https://github.com/ohadlevy/foreman/pull/6>

Here is how to use it:

```
$ curl -k -H "Accept: application/json" http://localhost:3001/status  
{ "db_duration_ms": "2", "result": "ok" }
```

#3 - 02/25/2011 07:51 AM - Lukas Zapletal

- Status changed from New to Pending

- % Done changed from 0 to 100

#4 - 02/25/2011 07:53 AM - Ohad Levy

would you mind sending it to foreman-dev mailing list as a patch? - see [Contribute](#)

#5 - 02/28/2011 12:03 PM - Lukas Zapletal

I will do that. I dont know why it did not send me an email when you updated the task. Need to get familiar with RedMine :-)

#6 - 03/01/2011 09:27 AM - Lukas Zapletal

Moving to the home controller and creating functional test. I will re-send my patch to the list.

#7 - 03/02/2011 09:56 AM - Lukas Zapletal

Sending new patch to the list:

- moved to home controller
- returns HTTP CODE 200 when ok, 500 on error
- functional test

#8 - 03/07/2011 07:36 AM - Anonymous

- Status changed from Pending to Ready For Testing

Applied in changeset [b752d4f75fcc815ed89a4a3e4217ac44bb2238d3](#).

#9 - 03/09/2011 06:32 AM - Ohad Levy

- Status changed from Ready For Testing to Closed

- Target version set to 0.2
