| Pull request: https://github.com/Katello/katello/pull/4538 | |
| Description | |
| There appear to be a couple of issues in the content host bulk actions. The issues are regressions from recent changes. | |
| The first issue is: | |
| <ol style="list-style-type: none">1. go to Hosts -> Content Hosts2. select one or more hosts from the list3. click 'Bulk Actions'4. click 'Unregister Content Hosts' | |
| Observe error indicating: "You are not authorized to perform this action." | |
| Note: a similar error can occur for any bulk action that hits the systems_bulk_actions_controller | |
| Once the first issue is solved: | |
| <ol style="list-style-type: none">1. go to Hosts -> Content Hosts2. select one or more hosts from the list3. click 'Bulk Actions'4. click 'Errata' | |
| Observe error in log indicating: | |
| Completed 400 Bad Request in 91.2ms (Views: 0.5ms ActiveRecord: 1.3ms) | |
| With body: {"displayMessage":"Cannot sort by 'name'", "errors":["Cannot sort by 'name'"]} | |

fixes #6970 - content host bulk actions - fix 2 regressions

Stumbled across a couple of issues that need fixing.

1. unable to perform bulk actions (via systems_bulk_actions_controller) due to permission denied errors
2. unable to retrieve applicable errata
