Description Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1085417 Try these commands: hammer product info --id 885858585885 hammer system info --id 8588585858 You'll get weird results like: undefined method `readable?' for nil:NilClass or Error: 400 Bad Request I'd expect a message like: Could not find product with id 885858585885

In capsule and product APIs, the show action for a nonexistant id fails to give a proper 404.

for example /api/products/123123 where product 123132 does not exist product gives 500 no resource loaded

capsule gives protected method `resource_name' called for

Currently these commands seem to be having problems (excerpt from <https://gist.github.com/dustint-rh/a60d05d0c62549b27dab>):

```
hammer capsule info --id 2141
protected method `resource_name' called for #<Katello::Api::V2::CapsulesController:0x0000001d229e18>
```

```
hammer product info --id 2141
no resource loaded
```

```
hammer repository info --id 2141
wrong number of arguments (0 for 1)
```
