| Description | |
| <p>By disabling the glue layers of candlepin in the systems controller test, testing any updates would require a workaround including unnecessary logic in the controller itself. You also cannot test for certain candlepin attribute updates, such as facts.</p> <p>The test and error follow:</p> <pre>def test_update_facts put :update, :id => @system.uuid, :facts => {"new" => "fact"} assert_response :success end status=500, {"displayMessage"=>"Can't mass-assign protected attributes: facts", "errors"=>["Can't mass-assign protected attributes: facts"]}</pre> | |

History

#1 - 08/07/2014 10:42 AM - Eric Helms

- Category set to Tests
- Difficulty set to easy
- Triaged changed from No to Yes

#2 - 12/21/2015 11:47 AM - Eric Helms

- translation missing: en.field_release set to 114

#3 - 08/28/2019 07:21 PM - John Mitsch

- Status changed from New to Closed

Thanks for reporting this issue. This issue was created over 4 years ago and hasn't seen an update in 1 year. We are closing this in an effort to keep a realistic backlog. Please open up a new issue that includes a link to this issue if you feel this still needs to be addressed. We can then triage the new issue and reassess.

#4 - 08/28/2019 08:37 PM - Justin Sherrill

- Target version deleted (Katello Backlog)

#5 - 08/28/2019 08:45 PM - Justin Sherrill

- Status changed from Closed to Rejected
