Katello - Bug #6992

RHEL 5 checksum error while installing packages for Redhat Content

08/07/2014 03:22 PM - Justin Sherrill

Status:	Closed		
Priority:	Normal		
Assignee:	Justin Sherrill		
Category:	Web UI		
Target version:	Katello 2.0		
Difficulty:	medium	**Fixed in Releases:**	
Triaged:	Yes	**Found in Releases:**	
Bugzilla link:	1127402	**Red Hat JIRA:**	
Pull request:	https://github.com/Katello/katello/pull/455 1		

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1127402
Description of problem:

Description of problem:
When RHEL 5.9 client is subscribed to katello to consume "http://inecas.fedorapeople.org/fakerepos/zoo-rhel5-new/" repo package, yum install fails with error: "[Errno -3] Error performing checksum"

A workaround is installing python-hashlib in the %packages section of the kickstart.

How reproducible:
Always

Steps to Reproduce:
1. Provision a rhel 5 system from satellite
2. Attempt to install a package after provisioning

Actual results:
install fails with error: "[Errno -3] Error performing checksum"

Expected results:
Install works as expected

Additional info:
When moving sync logic to dynflow, we lost this logic:

Associated revisions

Revision 14152963 - 08/07/2014 03:52 PM - Justin Sherrill

fixes #6992 - ensure rhel 5 repos can be used by el5 clients

We can not publish the repos prior to syncing as this will cause
pulp to set the checksum on the repos to sha256. See https://bugzilla.redhat.com/show_bug.cgi?id=1127793
We also need to pull the checksum after sync and add it to the repo
to ensure that clones use the same checksum

Revision 17c7daf6 - 08/12/2014 03:08 PM - Justin Sherrill

Merge pull request #4551 from jlsherrill/6992

fixes #6992 - ensure rhel 5 repos can be used by el5 clients
