How reproducible: Always	
Steps to Reproduce:	

```
1. hammer activation-key create --organization-id=3 --name=ak5 --max-content-hosts="-1"
Activation key created
```

```
1. hammer activation-key create --organization-id=3 --name=ak6 --max-content-hosts="test"
Activation key created
```

Actual results:

-1 and string are allowed as max-content-hosts values

Expected results:

-1 and string should not be allowed as max-content-hosts values

Additional info:

Note 1: The content-host limit is showing unlimited for the above created activation keys

Note 2: More info about the expected behavior in this bug: https://bugzilla.redhat.com/show_bug.cgi?id=1097054
