

Katello - Bug #7049

Puppet not being installed in kickstart katello

08/12/2014 12:59 PM - Leah Fisher

Status: Duplicate	
Priority: Normal	
Assignee:	
Category: Hosts	
Target version: Katello Backlog	
Difficulty: trivial	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description https://github.com/Katello/katello/blob/master/app/views/foreman/unattended/kickstart-katello_rhel.erb#L91 needs to be placed in https://github.com/Katello/katello/blob/master/app/views/foreman/unattended/kickstart-katello.erb as well so puppet will be installed during the kickstart.

History

#1 - 08/12/2014 01:00 PM - Leah Fisher

Should be linked to bug 6880 but I don't see how to do that.

#2 - 08/14/2014 10:15 AM - Eric Helms

- Related to Bug #6880: katello/satellite kickstart default for rhel includes puppet in packages list, branding added

#3 - 08/14/2014 10:15 AM - Eric Helms

- Category set to 83

- Difficulty set to trivial

- Triaged changed from No to Yes

#4 - 12/21/2015 11:44 AM - Eric Helms

- translation missing: en.field_release set to 114

#5 - 07/24/2018 03:01 PM - Stephen Benjamin

- Status changed from New to Duplicate

Katello no longer has separate kickstart templates from Foreman, so Puppet install will work the same regardless if you're using Katello or not.

#6 - 07/24/2018 03:01 PM - Stephen Benjamin

- Is duplicate of Refactor #14594: Remove all provisioning templates from katello repo added
