Katello - Bug #7097

Error when running librarian-update

08/14/2014 05:35 PM - Walden Raines

Status:	Resolved		
Priority:	Normal		
Assignee:	Ivan Necas		
Category:	Installer		
Target version:	Katello Recycle Bin		
Difficulty:	medium	**Fixed in Releases:**	
Triaged:		**Found in Releases:**	
Bugzilla link:		**Red Hat JIRA:**	
Pull request:			

Description

```
[walden@centos katello-installer]$ rel-eng/librarian-update
-bash: rel-eng/librarian-update: /usr/bin/bash: bad interpreter: No such file or directory
[walden@centos katello-installer]$ ll /usr/bin/bash
ls: cannot access /usr/bin/bash: No such file or directory
[walden@centos katello-installer]$ which bash
/bin/bash
[walden@centos katello-installer]$ grep bash rel-eng/librarian-update
#!/usr/bin/bash -ex
```

Generally I see people use #!/bin/bash instead of #!/usr/bin/bash -ex.

Steps to Reproduce:
1. Follow these https://github.com/Katello/katello-installer#updating-packages on any non fedora/rhel system
