Foreman - Bug #7098

Improve selinux reporting in foreman-debug

08/15/2014 04:01 AM - Lukas Zapletal

Status:	Closed		
Priority:	Normal		
Assignee:	Lukas Zapletal		
Category:	Packaging		
Target version:	1.7.0		
Difficulty:		**Fixed in Releases:**	
Triaged:		**Found in Releases:**	
Bugzilla link:	1134737	**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/foreman/pull/1691		

Description

We already added some information to foreman-debug (grep AVC and audit2allow).

Unfortunately when selinux interfaces are not installed and generated, -R option can fail:

```
COMMAND> audit2allow -R < /var/log/audit/audit.log

could not open interface info [/var/lib/sepolgen/interface_info]
```

I am going to fix this:

- instead of grep AVC we will do sesearch -m AVC which gives nicer overview including SYSCALL lines
- instead audit2allow -R we will try to generate interfaces and if that fails we will do audit2allow without the -R option
