<b>Description</b> Cloned from <a href="https://bugzilla.redhat.com/show_bug.cgi?id=980113">https://bugzilla.redhat.com/show_bug.cgi?id=980113</a> Description of problem:  The dashboard page has a horizontal scrollbar when the window is 1090 px wide. The scrollbar disappears only when the window is cca 1200 px wide. The WebUI should not require scrolling unless necessary.  Version-Release number of selected component (if applicable):  Satellite 6 MDP1  How reproducible:  Deterministic.  Steps to Reproduce: 1. Use Firefox and make the window cca 1090 pxs wide (for example by having tabs in the sidebar on 1280 px wide screen). 2. Log in to Satellite's dashboard.  Actual results:  Horizontal scrollbar.  Expected results:  No horizontal scrollbar especially when the page is not crowded with information.  Additional info:

Fixes #7120/BZ980113: use BS3 on dashboard to make it responsive.

The dashboard was displaying badly in smaller browsers. This commit reworks the dashboard to use bootstrap 3 classes and thus makes it responsive.
