

## Katello - Bug #7138

### Don't allow users to add iso repos to content views

08/18/2014 12:03 PM - Partha Aji

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b> David Davis	
<b>Category:</b> Web UI	
<b>Target version:</b> Katello 2.0	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b> Yes	<b>Found in Releases:</b>
<b>Bugzilla link:</b> 1030537	<b>Red Hat JIRA:</b>
<b>Pull request:</b> <a href="https://github.com/Katello/katello/pull/4590">https://github.com/Katello/katello/pull/4590</a>	
<b>Description</b>	
Cloned from <a href="https://bugzilla.redhat.com/show_bug.cgi?id=1030537">https://bugzilla.redhat.com/show_bug.cgi?id=1030537</a>	
Description of problem:	
If you attempt to publish a content view definition and have added an ISO repo, the publish will fail with an error:	
NoMethodError: undefined method `[]' for nil:NilClass	
Version-Release number of selected component (if applicable):	
mdp2/katello 1.4	
How reproducible:	
always	
Steps to Reproduce:	
<ol style="list-style-type: none"><li>1. Import a manifest</li><li>2. Enable one or more ISO repos</li><li>3. Create a content view definition</li><li>4. Add at least one ISO repo to the content view definition</li><li>5. Publish the definition to a content view</li></ol>	
Actual results:	
Error	
Expected results:	
Publishes correctly	
Additional info:	
I'm not sure that we should actually support adding ISOs to a CV, if we should then it should work.
