

## Katello - Bug #7147

### Katello puppet modules are not compatible with puppet-lint >= 1.0.0

<b>Description</b>	
There were couple of lints added, as well as the behaviour of existing lints (for example the arrows alignment does not pass now).	
I would suggest not switching immediately to it, to avoid unnecessary conflicts between the upstream and downstream and switching to it after the Satellite 6.0 is released.
