How reproducible:

Always

Steps to Reproduce:

```
hammer> host-collection create --name='testbughc' --organization-id=3
--content-host-ids='dbd5c88a-7ce6-45f5-bcdf-579564738ec4,87c7c1cd-b01f-479f-a3e2-558455272b7c'
Host collection created
```

```
hammer> host-collection update --name='testbughc' --organization-id=3
--content-host-ids='dbd5c88a-7ce6-45f5-bcdf-579564738ec4,87c7c1cd-b01f-479f-a3e2-558455272b7c'
Host collection updated
```

Both the commands above failed to associate the content-hosts to host-collections

Actual results:

host-collection create did not associate the content-hosts to host-collection

Expected results:

host-collection should associate the content-hosts to host-collection

## Associated revisions

### Revision 51479cbd - 08/19/2014 11:03 AM - dustin tsang

Fixes #7151 - hc create/update --content-hosts

host-collection create and update are ignoring --content-hosts because ability to alias resource names from systems to host-collections (this causes the option names to change).

### Revision 1e4bb306 - 08/19/2014 11:15 AM - dustin tsang

Merge pull request #227 from dustint-rh/hc\_cr\_up\_hcs

Fixes #7151 - hc create/update --content-hosts
