Foreman - Bug #7185

search for host by included class name does not filter host results

08/20/2014 02:10 PM - Joshua Hoblitt

Status:	Duplicate		
Priority:	Normal

Pull request:			

Description

Searching from the `all hosts` page with a query like `class = mysite::foo` matches all hosts known to foreman instead of only the hosts that include the class via enc. The same problem is seen when searcing for a class name via the `puppet classes` pages and then clicking on the "number of hosts" link, which always returns a list of all hosts known to foreman.

- Status changed from New to Duplicate

Thanks for the report, I think this is covered by #7035 which has a patch under review/test.
