

Katello - Bug #7266

unable to add custom products[subscription] created to activation-key

08/26/2014 11:31 AM - Justin Sherrill

Status:	Closed	
Priority:	High	
Assignee:	Justin Sherrill	
Category:		
Target version:	Katello 2.0	
Difficulty:	easy	Fixed in Releases:
Triaged:	Yes	Found in Releases:
Bugzilla link:	1131269	Red Hat JIRA:
Pull request:	https://github.com/Katello/katello/pull/4612	

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1131269

Description of problem:

Unable to add products[subscriptions] created via UI to activation-key.

Version-Release number of selected component (if applicable):

sat6-GA-snap5

How reproducible:

Steps to Reproduce:

1. create few prd & repos via cli
2. sync and promote
3. create few prd & repos via webui
4. sync and promote
5. observe that only those products created via cli, are now seen under subscriptions while adding subs to the activation-keys.

Actual results:

observe that only those products created via cli, are now seen under subscriptions while adding subs to the activation-keys.

Expected results:

there should be consistency between webui and CLI actions.

subscriptions created via webui should be visible no matter how the subscriptions[here products] are created.
