Katello - Refactor #7294

Replace usage of translate filters in <th> with directives

08/28/2014 09:45 AM - Walden Raines

Status:	Closed		
Priority:	Normal		
Assignee:	Walden Raines		
Category:	Web UI		
Target version:	Katello 2.0		
Branch:		**Pull request:**	https://github.com/Katello/katello/pull/4623
Difficulty:	easy	**Fixed in Releases:**	
Triaged:	Yes	**Found in Releases:**	
Bugzilla link:		**Red Hat JIRA:**	

Description

Replace this:

```
<th alch-table-column>{{ "Author" | translate }}</th>
```

With this:

```
<th alch-table-column><span translate>Author</span></th>
```

Throughout the application. This will reduce the number of filters we have and should make the application slightly more performant.

Revision 16e1d60c - 08/28/2014 10:06 AM - Walden Raines

Fixes #7294: replace <th> translate filters with directives.

We were using translate filters in our table headers because of a clash between the translate directive and other directives. This commit updates the text in the <th>s to be wrapped in a span that includes the translate directive instead. Directives are more performant than filters so this should speed up the application ever so slightly.
