Associated revisions

Revision 9c0e127b - 05/17/2010 07:03 AM - Paul Kelly

Fixes #170 - implement usergroups

Added migration
Added tests
Added MVC files
Added the routes as well
Added the program logic and additional views
Added RESTful actions for update and create
Added validations to ensure that usergroup.name and user.login do not collide
Added "recipients" method to users and usergroups. This returns a list of addresses.
Usergroup#recipients will follow all nested usergroups avoiding any loops and
return only unique addresses

Fixes #73 - Add usergroup support to hosts

Fixes #244 - Remove ActiveScaffold from the usergroup pages

and finally - added owners to host edit page and other whitespaces and
mods by ohad

History

#1 - 12/10/2009 07:35 AM - Ohad Levy

- Target version changed from 0.1-3 to 0.1-4
