Revision 797f2591 - 09/08/2014 03:55 PM - Walden Raines

Fixes #7358/BZ1138411: correct empty org message logic on dashboard.

The dashboard was not displaying in the case of not having a default org selected if you were admin. This is because we wanted to prevent showing the error message to admins in #4611 and because of spacing being important in haml we ended up not showing anything at all. This commit fixes the dashboard display in the case of an admin without any default organizations.
