Description

Tried to go from Content Dashboard to Repositories, but had timed out. When redirected to the login page, error message was in Swedish. Browser Locale is set to English, and Account settings set to Browser Locale.

History

#1 - 09/04/2014 02:18 PM - Christine Fouant

- Bugzilla link set to 1138413

#2 - 09/05/2014 08:52 AM - Eric Helms

- Project changed from Katello to Foreman

#3 - 09/05/2014 08:58 AM - Dominic Cleal

- Status changed from New to Need more information

I've never witnessed this in Foreman.. would guess it's to do with the order of before_filters, e.g. set_gettext_locale isn't being called before session_expiry. Didn't Katello add set_gettext_locale to its filters list, is the order definitely correct? (On the repositories controller, presumably)

In Foreman core, set_gettext_locale is before session_expiry.

#4 - 02/29/2016 06:25 AM - Tomer Brisker

- Status changed from Need more information to Rejected

Could not reproduced. Open over a year with no new info. Closing, reopen if reproducable with reproduction steps.
