Katello - Bug #7360

Synchronization status and refresh should not be available when repo is not synced

09/04/2014 03:17 PM - Brad Buckingham

Status:	Closed		
Priority:	Normal		
Assignee:	Brad Buckingham		
Category:	Web UI		
Target version:	Katello 2.0		
Difficulty:		**Fixed in Releases:**	
Triaged:	Yes	**Found in Releases:**	
Bugzilla link:	1128796	**Red Hat JIRA:**	
Pull request:	https://github.com/Katello/katello/pull/4640		

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1120595
Description of problem:
If you create a custom product with a custom channel that is not synchronized, you still can request the environment for a sync, that will fail with a warning.

Version-Release number of selected component (if applicable):
6.0.3

How reproducible:
Always

Steps to Reproduce:
1. Create a custom product
2. Create a custom repo without original yum server
3. Synchronize it

Actual results:
Sync starts as fails with a warning

Expected results:
A message and a dialog explaining that there is nothing to synchronize

Additional info:
I would expect a warning dialog explaining that only sync-able repos will be sync when I assign a synchronization plan to a product that is not sync-able

Revision f2b47016 - 09/04/2014 03:41 PM - Brad Buckingham

fixes #7360 / BZ 1120595 - UI: Product: fix Sync Now behavior

This commit addresses 2 small issues related to the 'Sync Now' button
on a the Product -> Details pane. After the user clicks the button
and a response is received from the server:
1. switch the button back from 'Syncing...' to 'Sync Now'
2. display a notification to the user to indicate that the sync has
been scheduled
