

Foreman - Feature #746

Generate all the Host template when click on Build to avoid errors during installation

03/15/2011 03:15 PM - Arnaud Sourieux

Status: Closed	
Priority: Normal	
Assignee: Shlomi Zadok	
Category: Unattended installations	
Target version: 1.7.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman/pull/1753	
Description When I click on build only the PXELinux template is parsed, so if there is an error in my others templates, such a preseed or finish templates, they will append during the installation, so it could be a good thing to parse them before validate the build action and if there are error on them, display them to the user and avoid the build action
