Description

Processing UsersController#destroy (for at 2011-03-21 10:20:00) [DELETE]
Parameters: {"action"=>"destroy", "_method"=>"delete",
"authenticity_token"=>"u7qNYn7IV3FTinjbQPI0kUtq9bpTQhIsX3wyLYx1QW0=", "id"=>"7", "controller"=>"users"}
You may not destroy xxxx as it is in use!

History

#1 - 07/22/2011 11:36 AM - Paul Kelly

- Category set to Rails

- Status changed from New to Rejected

- Assignee set to Paul Kelly

I am unable to reproduce this. The User page is updated with a list of hosts that the user owns and the operation fails. This is the desired effect.
