Pull request:	https://github.com/theforeman/foreman/pull/1809		

Description
When you press on Submit button nothing happens.
Error:
"An invalid form control with name='host[mac]' is not focusable"
It looks like it related to the following patch: http://theforeman.org/issues/7560 "Bug #7560: add :required => true on host fields that have conditional validation if host.managed? - Foreman"

Revision 22438bd2 - 10/01/2014 09:52 AM - Marek Hulán

Fixes #7750 - hidden required fields do not prevent submit

When a field is explicitly required an HTML5 tag required was added
which caused issues during form submit.

- Related to Bug #7560: add :required => true on host fields that have conditional validation if host.managed? added

#2 - 09/30/2014 07:06 AM - Dominic Cleal

- Target version set to 1.7.3

Indeed, when using Chrome and building a host on a compute resource you get an error in the console, but it otherwise fails to submit.

I think Dmitry said that on Firefox it pops up a notification instead.

What appears to be happening is that our "required" flag is actually being passed into the HTML rather than just being used for our "*" markers.

Correct, the error in the description is from Chrome.
In FF I got a strange popup message: "Please fill out this field" in the upper left corner. See attachment
