

Foreman - Bug #790

The puppetmaster switcher does not handle switch to smartproxy well

03/25/2011 07:04 AM - Paul Kelly

Status: Closed	
Priority: Normal	
Assignee: Paul Kelly	
Category: Web Interface	
Target version: 0.2	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
The SmartProxy/text_entry selection can become blocked as, after a switch to a SmartProxy reference, the edit page will contain a hidden section containing name[puppetmaster_name]="Bristol production proxy". This is fine in the select dropdown but not fine in the hidden text section. It is wrong and does not pass validation.
