<b>Description</b>	
<p><a href="#">#5488</a> changed the installer to a hook layout which only shows information about the configured Puppet modules, the username, password and URLs, when the run was successful.</p> <p>This is a regression since <a href="https://github.com/foreman/foreman-installer/commit/0fcebfbf15e94e1f4f88229d7a4b517374f69599">https://github.com/foreman/foreman-installer/commit/0fcebfbf15e94e1f4f88229d7a4b517374f69599</a> which made it always show the output, as sometimes the error is non-fatal.</p>
