Description Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1154392 Description of problem: As a user, I'd like the ability to have a singular link that sets both the 'Any Organization' AND the 'Any Location' context. This would allow the ability to quickly change to the 'Any Context'. Version-Release number of selected component (if applicable): foreman-1.6.0.46-1.el6sat.noarch How reproducible:
