Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1154382	
Description of problem:	
This RFE requests the ability to configure hammer with either	
<ul style="list-style-type: none">• a token for login that is separate from the username/pass OR• a session based credential cache so that the user can be prompted for login once at the beginning of their CLI session.	
The goal is to keep the user from placing an administrative username/password within hammer's configuration file, in cleartext.	
Version-Release number of selected component (if applicable): rubygem-hammer_cli-0.1.1-12.el6sat.noarch
