

Foreman - Feature #813

Support AD group membership for authorization and authentication

03/31/2011 04:30 AM - Marcello de Sousa

Status: Closed	
Priority: Low	
Assignee: Daniel Lobato Garcia	
Category: Users, Roles and Permissions	
Target version: 1.6.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link: 710189	Red Hat JIRA:
Pull request:	
Description	
We are now using Foreman with ldap to connect with AD users. Those users are members of specific AD usergroups.	
Allow managing users in Active directory groups and assigning Foreman rights directly to these AD groups (like we are able to do with AD users now) would avoid the overhead of having to manage those users again in Foreman usergroups.
