Description	
The foreman host details page (click on a host name from the "hosts" page) is not displaying correctly. The "runtime_graph" graph is overlapping the "host_overview" statistics, both are the the top of the page. I can see all of the "runtime_graph" but only the right half of the "host_overview" stats.

any chance you could provide a screenshot?
it would be helpful to know on which os/browser you were using it.

I'm using firefox 3.6.15, foreman 0.2. Also, I've changed the server name and domain from the screenshot. Thanks.

if you enlarge the window does it work ok?

Foreman assumes you have some sort of a minimum window size...

#4 - 03/31/2011 11:34 AM - monte olvera

sorry, was in a meeting. The window is already maximized. If I minimize then maximize it there is no difference.

#5 - 04/01/2011 08:25 AM - monte olvera

any update on this? Thanks.

its odd, I can't reproduce the problem.

can you try with another browser (such as chrome)?

what is your display resolution?

#7 - 04/01/2011 04:10 PM - monte olvera

display resolution is 1024x768.

IE 6.0.2 (restricted to this version) is better but not much, see attached.

I'm installing chrome now and will post its results as soon as I get them, should only be a few minutes.

monte olvera wrote:

display resolution is 1024x768.

as it turns out, 1024x768 seems too low currently.

the only way around it (at the moment), would be to resize the graphs which are rendered on that page (see app/views/hosts/show.html.erb file)

#9 - 04/01/2011 05:38 PM - monte olvera

graphs resized: changed width from 800 to 650, looks good, thanks!

- *Status changed from Feedback to Closed*

Since this ticket, the UI is completely new. I prefer to close it to not mislead the devs.
