Foreman - Bug #8149

Foreman tries to update default values for parameters that include "\n" on every run

Description

This happens with:
https://github.com/ghoneycutt/puppet-module-ssh

Default value is:

```
  $root_ssh_config_content              = "# This file is being maintained by Puppet.\n# DO NOT EDIT\n",
```

The value is saved every time, but I guess the problem is that "\n" is expanded at some point. It is at least visible as multiline in the parameter editor.

I will have a detailed look on Friday.
