

## Foreman - Bug #815

### Redirect to login page when editing multiple hosts

03/31/2011 04:53 PM - Eric Shamow

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b> Bash Shell	
<b>Category:</b> Web Interface	
<b>Target version:</b> 0.3	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b>	<b>Found in Releases:</b>
<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
In Foreman 0.2 final, when editing multiple hosts in the Hosts view, upon clicking submit the user is returned to the login screen.	
Per ohadlevy in #theforeman:	
it seems to be related to the fact that the ajax request doesnt contain the authentication_id, which probably happened when we upgraded rails	
but I wanted to change the logic from ajax to store the selected hosts in a cookie instead	
as the current implementation is not that solid

#### Associated revisions

##### Revision 1a51088d - 04/23/2011 02:16 PM - Ohad Levy

fixes #815 - Redirect to login page when editing multiple hosts

this patch converts the multiple selections to be pure javascript, removing the buggy AJAX implementation.

##### Revision 078fbb59 - 05/01/2011 06:59 AM - Ohad Levy

refs #815 - converted multiple host selections to a dialog box

- added selected counter
- checkboxes are now always shown, disabled or enabled based on users permissions
- cleanups

#### History

##### #1 - 03/31/2011 04:53 PM - Eric Shamow

Meant to note -- this is running behind Passenger.

##### #2 - 04/12/2011 03:59 PM - Ohad Levy

- Assignee set to Bash Shell
- Target version set to 0.3

##### #3 - 04/22/2011 04:13 PM - Ohad Levy

- File 815.patch added
- Category set to Web Interface

so, inspired by a human patch, attached is my own.

this converts the entire selection to javascript, and remove the old dependency upon AJAX.

its still not complete, but 99% of the functionality should already be included, would be great if you could give it a try.

**#4 - 04/23/2011 02:41 PM - Ohad Levy**

- Status changed from New to Ready For Testing

- % Done changed from 0 to 100

Applied in changeset [1a51088d87c3420e435a3798358bec4b3b2b7de1](#).

**#5 - 04/23/2011 02:41 PM - Ohad Levy**

- Status changed from Ready For Testing to Closed

**#6 - 04/27/2011 06:06 PM - Bash Shell**

Nice .. I don't know when I will actually get to try this, but I was wondering if this works if you select a large number of hosts? ( say several hundred )

as the cookie only saves the ids of a host, then I would assume our limit is about 1k hosts
