Pull request:			

Description
Currently two modules (templates and dhcp) rely on this url, but have it as a module-specific setting

History

#1 - 10/29/2014 08:23 AM - Anonymous

- Project changed from Foreman to Smart Proxy

#2 - 10/29/2014 08:38 AM - Dominic Cleal

- Tracker changed from Feature to Refactor

- Category set to DHCP

#3 - 04/18/2016 10:20 AM - Anonymous

Closing this ticket: a global foreman_url setting was introduced in 038fa6cf7079880b16d998346d05112acefec81e.
