

Foreman - Bug #82

Re-organize "Classes" on Create Host page

11/17/2009 04:10 PM - Josh Baird

Status: Closed	
Priority: Normal	
Assignee: Ohad Levy	
Category: Web Interface	
Target version: 0.1-3	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
<p>The "Classes" section of the "Create Host" page could use a face lift. It is hard to read, especially with a large number of classes. It would also be nice if you could somehow limit what modules are listed, perhaps modules specific to the OS? I have lots of modules such as "ntp::linux::config," "ntp::linux::service," etc but I'm really only interested in seeing/including "ntp," since everything else (ntp::linux::bleh) is included from the "ntp" class.</p> <p>I think a good layout would be two boxes (Available and Selected) where you could drag (or move over with an arrow) classes from the available box to the selected box.</p>

Excellent! The only thing I would add is a highlight to the currently selected item. I will see if I can manage this via CSS.

#4 - 11/24/2009 03:43 PM - Josh Baird

Also, this feature should be implemented on the Foreman Groups page.

#5 - 11/25/2009 03:46 AM - Ohad Levy

- Status changed from *Feedback* to *Ready For Testing*
- Target version set to 0.1-3
- % Done changed from 0 to 90
