<b>Description</b>	
<p><a href="#">#4463</a> removed default_template_url methods from the two API controllers, but left it in the UI controller. This method is called by PXE default templates, e.g.</p> <pre>ks=&lt;%= default_template_url(profile[:template], profile[:hostgroup]) %&gt;</pre> <p><a href="https://github.com/foreman/community-templates/blob/master/pxe/PXELinux_default.erb#L25">https://github.com/foreman/community-templates/blob/master/pxe/PXELinux_default.erb#L25</a></p> <p>I see it's been fixed in the UI controller for the <a href="#">#4463</a> bug, but the code should have been moved somewhere common, not removed in 2/3 places.</p> <pre>failed to process template: undefined method `default_template_url' for #&lt;Api::V2::ConfigTemplatesController:0x0000000a0ada48&gt;;</pre>
