

Installer - Bug #8371

foreman-installer tries to install foreman-release-scl on Ubuntu after upgrade from 1.6.2 to 1.7rc1

11/12/2014 10:23 AM - Ronald van Zantvoort

Pull request:		

Description

When re-running the installer as per the manuals upgrade instructions, our Ubuntu 14.04.1 server is presented with the following error:

```
root@foreman:~# foreman-installer --verbose --foreman-plugin-discovery-install-images=false

```

I'm guessing scl relates to RHEL's Software Collections, which, needless to say, don't apply to Ubuntu?

"foreman::plugin::discovery::params::install_images" is not a boolean. It looks to be a String' added

#2 - 11/12/2014 10:28 AM - Ronald van Zantvoort

All other things seem to fail from that point onwards as well:

#3 - 11/12/2014 10:30 AM - Dominic Cleal

We changed how this works between releases - in 1.6 it would default to on, but then skip the Puppet code to install the package on Ubuntu. In 1.7 we set the default based on the OS, and the code simply follows the value (making it easier to override either way).

I think the re-running installer advice is just bad given how many behaviour and defaults changes we make between releases, and that kafo/the installer stores previous answers rather than recomputing defaults.

I'm not quite sure how we should approach this problem generally.

#4 - 11/12/2014 10:30 AM - Dominic Cleal

--foreman-configure-scl-repo=false will prevent it attempting the install.

#5 - 11/12/2014 10:31 AM - Dominic Cleal

- Project changed from Foreman to Installer
- Category deleted (Packaging)

#6 - 11/12/2014 10:37 AM - Ronald van Zantvoort

- Related to Refactor #7234: SCL 1.1 builds needed for EL rebuilds (CentOS, SL) added

#7 - 11/12/2014 10:37 AM - Ronald van Zantvoort

- Related to Bug #4841: Package Foreman in its own SCL added

#8 - 11/12/2014 10:38 AM - Ronald van Zantvoort

LOL you just beat me to it :)

#9 - 11/13/2014 05:18 AM - Ewoud Kohl van Wijngaarden

We've had discussions about this and some were in favor of storing all values (which ensures you can do an exact reinstall given the same versions) while others were in favor of only storing non-default choices (which gives you a much higher chance of being able to use the answers file on an upgraded version). We chose the former, but maybe it's time to revisit that choice.

#10 - 11/13/2014 06:50 AM - Ronald van Zantvoort

One could envision a mechanism similar to the db migrations for changing defaults?

#11 - 04/22/2016 04:58 AM - Dominic Cleal

There is support for migrations now, since [#10369](#), and we've started adding a few. Future changes to parameter defaults should always receive migrations.

#12 - 05/20/2017 09:07 AM - Anonymous

- Status changed from New to Resolved

While this specific case won't get fixed, similar ones in the future will get handled.
