Description	
<p>The edit multiple hosts feature does not work when I try to change the host groups on multiple hosts. It seem to only apply the hostgroup to one host and thats it.</p> <p>This pertains to the latest development build.</p> <p>To reproduce:</p> <ol style="list-style-type: none">1. Select multiple hosts using checkbox2. click "edit multiple hosts"3. change hostgroup to something

can you confirm if this is still the case in git? the recent tests we've added in [#865](#) should ensure this doesnt happen.

#2 - 05/02/2011 12:19 PM - Corey Osman

I just checked. Works great! You can close the ticket.
