Description

I've created a new partition table named "AutoYast /dev/sda" by using the Foreman 1.7.0 GUI (menu item Hosts -> Partition Table -> New Partition Table). The partition table was created successfully, however it was not possible to open/edit/delete the entry afterwards ... instead the following error messages appeared:

```
"The page you were looking for doesn't exist. You may have mistyped the address or the page may have moved."
```

Error message /var/log/foreman/production.log:

```
Started GET "/ptables/AutoYaST%20/dev/sda/edit" for 10.0.2.2 at 2014-12-03 22:06:16 +0100
