| Description | |
| <p>I installed the latest package from the testing repo and the /etc/default/foreman has Windows line endings. This is causing the init.d scripts to fail. After converting the line endings, the init scripts work fine.</p> | |
| <pre>puser@puppetqa:~\$ cat -e /etc/default/foreman</pre> | |
| <ol style="list-style-type: none">1. Start foreman on boot?^M\$ START=yes^M\$ ^M\$2. the location where foreman is installed^M\$ #FOREMAN_HOME=/usr/share/foreman^M\$ ^M\$3. the network interface which foreman web server is running at^M\$ #FOREMAN_IFACE=0.0.0.0^M\$ ^M\$4. the port which foreman web server is running at^M\$5. note that if the foreman user is not root, it has to be a > 1024^M\$ #FOREMAN_PORT=3000^M\$ ^M\$6. the user which runs the web interface^M\$ #FOREMAN_USER=foreman^M\$ ^M\$7. the rails environment in which foreman runs^M\$ #FOREMAN_ENV=production^M\$ | |

History

thats odd, the git checked in version does not have a windows ending.. @josci, any idea?

#2 - 05/02/2011 05:34 AM - Ohad Levy

- Status changed from New to Feedback

#3 - 05/02/2011 06:15 AM - Jochen Schalanda

I can't reproduce the described error. Line endings in our source repository and in the package files are POSIX style (single "\n").

Andrew, please purge Foreman (apt-get purge foreman), clean your package cache (apt-get clean) and reinstall Foreman on your system, and check if the wrong line endings are still there.

#4 - 05/21/2011 01:05 PM - Jochen Schalanda

- Category set to Packaging

- Status changed from Feedback to Rejected

- Assignee set to Jochen Schalanda

I still can't reproduce the described problem. If it occurs again, please write a comment to this issue.
