<b>Pull request:</b>	<a href="https://github.com/foreman/foreman/pull/2041">https://github.com/foreman/foreman/pull/2041</a>	
<b>Description</b>		
Installing from source I've hit the subj during assests and locales compilation. To fix I had to change i18n gem version to 0.6.11 from i18n (~> 0.6, >= 0.6.4). 0.7.x was installed by default. Also i18n.enforce_available_locales should be set to false to avoid warnings I guess.
