Description

The command:

```
hammer proxy import-classes --name foreman-el6.example.com
```

fails with 500 Internal Server Error.
The production log doesn't show anything but the line that causes the error:

```
 Started POST "/api/smart_proxies/1/import_puppetclasses" for 2001:4800:7818:104:be76:4eff:fe04:91

at the same second proxy.log shows 404:
