Description ruby193-rubygem-foreman-tasks has rpms only for el6.	

History

#1 - 01/06/2015 11:33 AM - Dominic Cleal

They're available in our nightly plugin repos, having been completed recently. Were you needing them in the 1.7 repo?

#2 - 01/06/2015 11:46 AM - cristian falcas

I wanted to play with the plugin and I noticed that they don't exist for el7. I will wait until it will be available.

#3 - 01/07/2015 03:21 AM - Dominic Cleal

- Project changed from Foreman to Packaging
- Category set to RPMs
- Status changed from New to Resolved

Okay, it'll be there in the 1.8 repos or you can install it from nightly if you want to test. Thanks.
