

Foreman - Bug #8861

Lengthy organization or location names breaks UI

Description	
<p>I've attached two screen shots that show how the UI behave when a lengthy organization or location name is created. Other places of the UI like the listing pages adds an ellipsis and creates a tooltip to show the full name.</p> <p>This is an edge case, but if the UI allows creating lengthy names then it should handle them properly.</p>
