<b>Pull request:</b>	<a href="https://github.com/theforeman/smart-proxy/pull/245">https://github.com/theforeman/smart-proxy/pull/245</a>	
<b>Description</b>		
With the recent changes to Rack and Sinatra ( <a href="https://github.com/sinatra/sinatra/commit/0f9a959253bdf0c39422ffb9b60278df46ef0248">https://github.com/sinatra/sinatra/commit/0f9a959253bdf0c39422ffb9b60278df46ef0248</a> , <a href="https://github.com/rack/rack/blob/master/lib/rack/server.rb">https://github.com/rack/rack/blob/master/lib/rack/server.rb</a> ) we bind localhost for dev setups and 0.0.0.0 for production. Let's add a config entry so I can override this in my development setup.
