Description

I am not sure how I arrived in this state but it might have something to do with me updating to host to a blank hostgroup from the api.
#867

I can't update this host or change values because the submit button is missing.

a few code has been changed around the submit button, can you please revisit this with the latest git?

thanks!

can you please double check if this still happens after our UI modifications? I cant reproduce it

#7 - 05/24/2011 03:21 AM - Corey Osman

Ok I was able to reproduce this again and figured out the problem.

The problem is:

Safari Web browser.

This problem does not occur with firefox. However, if you use Safari (OSX) the submit button does not show up.
