Foreman - Feature #8975

Filter email summary on fact

Pull request:			

Description

In Foreman 1.6 and earlier I could set a fact filter on my daily email summary report, like so:

/usr/sbin/foreman-rake reports:summarize hours=24 fact=lsbdistid:RedHatEnterpriseServer

In 1.7 I can't figure out how to do this. The reports:daily task seem to ignore the fact option entirely.

Am I missing something or is this a feature that has been removed?
