

Foreman - Bug #900

searching on time is not correct

05/16/2011 09:26 AM - Paul Kelly

Status:	Closed	Fixed in Releases: Found in Releases: Red Hat JIRA:
Priority:	Normal	
Assignee:	Amos Benari	
Category:	Search	
Target version:	0.3	
Difficulty:		
Triaged:		
Bugzilla link:		
Pull request:		
Description		
I am guessing that there is an issue with timezones when doing a search. If I select "hosts - active" then the search generates "last_report > "35 minutes ago" and (status.applied > 0 or status.restarted > 0)". There are no hosts returned with this search. If I change this to "last_report > "95 minutes ago" and (status.applied > 0 or status.restarted > 0)" then I get the expected, huge, list. Of course I could be wrong and this may not be an issue with timezones. . . .

Paul, can you double check that your foreman host time is synced correctly?

does it happen with all time stamp fields? (such as installed_at)

#2 - 05/19/2011 07:41 AM - Amos Benari

- Assignee set to Amos Benari
